

The Woodlands Township

**Request for Proposals
Manufacture of Six Transit Trolley Replacement Vehicles
Contract Number C-2023-0297**

Addendum #2

January 23, 2024

Note: This Addendum must be included as part of the proposal documents.

- Updates to the Scope of Work based off of deviation requests:
 - The width of the vehicle can be a maximum of 99" without side mirrors.
 - The seated passenger capacity can be less than 22 passengers to accommodate the width and height restrictions, but highest available seating capacity is preferred.
 - An Altoona test of 7-year 200,000 mile is acceptable based on the build of the vehicle.
 - If a Brake Retarder is not included in the proposed engine platform, that is acceptable.
 - The chassis is preferred to be a Ford but may fit the build to accommodate the width and height restrictions.
 - The Gross Vehicle Weight Rating may be at 14,500 based on the build of the vehicle.
 - Vendors are allowed to propose multiple trim packages on the outside with associated costs.
 - Passenger window must be able to be opened, but there is no preference between vertical or horizontal sliders.
 - Floor construction may have a slope if needed. However, if there is a slope to accommodate a ramp entry, appropriate handrails must be proposed.
- Approved Equals
 - Destination Sign
 - Transign
 - Luminator Horizon SMT destination sign system
 - In-Vehicle Infotainment System
 - Luminator INFOtransit
 - ADA-Accessible Ramp
 - Braun RA300 Ramp

This Addendum must be Signed & Returned with your submittal.
